Professional profile

Product practitioner with the technical background to connect requirements, user workflows, and implementation. EverestX work covers talent applications, client onboarding, hiring requests, and notifications; Movo-X work covers patient registration, booking, and family health records. Brings architecture and delivery experience to prioritization and decisions about how a product should work.

Relevant experience

EverestX

Worked on application and onboarding journeys, hiring requests, interview outcomes, and client dashboards. Connected the buyer's requirements with the platform workflows used to evaluate and place talent.

Movo-X

Connected clinic operations with patient registration, consultation booking, family profiles, and health records. Work crossed native interfaces, shared models, backend services, localization, tests, and release preparation.
