Professional profile

Solutions architect with hands-on experience across APIs, databases, web platforms, and mobile release workflows. Brings implementation knowledge to explaining system requirements and technical decisions. Project work spans EverestX platform operations and Movo-X patient applications, including the dependencies between interfaces, services, tests, and releases.

Relevant experience

EverestX

Implemented talent and client onboarding journeys, hiring requests, interview outcomes, and lifecycle notifications. Improved video workflows by parallelizing uploads and transcription work, alongside changes to onboarding data loading and hiring-request loading.

Movo-X

Worked across native patient applications and backend integration for registration, consultation booking, family profiles, and health records. Extended delivery into automated tests, native build workflows, and release preparation.
